Customer Certification

I certify that I have installed qualifying product(s) and understand that the energy efficiency eligibility requirement for each product determines the incentive amount. The incentive amount cannot exceed the purchase price. I understand that the issuance of this incentive by the local utility is based solely on the value of the projected energy savings and in no way implies any ownership by the local utility of the products or equipment or makes any implied warranty of the products or their installation. I understand incentives are dependent on post-install inspections and measure Terms & Conditions. Nothing in this Incentive Worksheet constitutes obligation for payment.

I understand that the rebate payment will be sent to the Customer's mailing address unless otherwise indicated at the bottom of this page. If applicable, I am authorized to assign payment as specified in the "Payment Information" section.
